Dear Revolution Customer

Revolution Newsletter: 2011 Issue 7

Where did the summer go to, we're now officially in Autumn but that doesn't mean you need to neglect your pride and joy, that's why we have loads of special offers and updates to keep your machine in tip top condition.....

3SDM WHEELS

Never heard of them? well you will...Already a massive hit overseas, especially Stateside and at long last they have finally landed in the UK. Think cool wheels with amazing concave spokes, think deep dish designs with crazy offsets and you'll get the picture. You just gotta check these bad boys out [HERE](#)

FACEBOOK UPDATE

We've been actively updating Facebook daily giving you an insight into the wonderful world of Revolution. Everything from the latest wheels fitted, to workshop installations & comedy shots of various happenings in the world of modifying. Customers are sending us pictures of their rides from all over the globe and we're posting them up too plus we're running regular competitions with prizes galore. And with well over 1,000 fans you'll be missing out if you don't come and join us - so what are you waiting for? Become a fan and say you LIKE [HERE](#).

WINTER TYRES

Yup, it's that time again and as the temps drop and the weather creeps in you seriously need to start thinking of ordering your winter tyres. Last year a lot of customers got caught short and we even ran out of stock - plus tyre prices can go up by 40% from the manufacturers when stocks run low. When temperatures sink the elasticity of summer tyres begin to harden at 7°C, result is you'll start to lose traction and your braking distance increases significantly...bad times! Our range of Winter tyres consist of a specially-developed cold-proof rubber mix which stays elastic at low temperatures and have small sipes in them to give you extra grip too...good times! We've already sold over 200 winter tyres and we can offer all brands plus steel winter wheels if needed! Call one of our sales team now to check price and availability..

DEMO CAR UPDATES

It's the end of the line for Project TT....2 yrs has gone by so fast and we must say we've thoroughly enjoyed every minute of ownership - but time waits for no-one and we have to move on sadly. It's already pre sold and getting stripped as we speak so if you want to grab a bargain part for your TT give the lads a call. What will replace it I hear you ask....?..well you will just have to keep your eyes peeled to find out... Project RS4 is going from strength to strength and just returned from the Nurburgring on our annual trip and it performed perfectly. Lots of stuff still planned for this V8 beast to see how we're getting on so far click [HERE](#).

REVOLUTION REMAPS

Don't forget we offer a full bespoke engine Remapping service...none of this ECU generic flashing stuff, this is the real deal. Everything from a simple Stage-1 all the way up to Forge front mount intercoolers, uprated fuel pumps and Stage3+ work is carried out in house. With prices starting from as low as £299 and 0% Finance terms available there's no better way to make that modifying easier on your pocket. Our list of vehicles is growing day by day so take a look and see if you're car is listed, click [HERE](#).

That's it for this month. Please remember our **PRICE MATCH GUARANTEE** we won't be beaten on any genuine like for like price in the UK.

Drive safely and keep it on the black stuff!
